## DIGITAL CONCEPT ARTIST AND ILLUSTRATOR

Hello, I am KiraMae, an independent freelance digital concept artist and illustrator with a passion for storytelling through visual design. My work is deeply rooted in character development, imaginative worlds, and emotive aesthetics. While my primary canvas is digital, I also explore 3D modeling and traditional oil painting, blending techniques across mediums to enhance depth and texture in my art. I draw inspiration from everyday life, nature and especially the sea and beauty we often overlook. I believe there's a little spark of magic in life, if you know where to look.
